SERGIO ARAGONÉS MARGINALS XL

Often, a little goes a long way. It's certainly true of vinegar, open heart surgery and the music of Avril Lavigne! On the other hand, sometimes you want as much of something as you can get your greedy little hands on! And we're happy to spoil our readers rotten by running Sergio Aragonés' "marginal" cartoons in the same opulent size he submits them. However, with those other things, please remember that moderation is key (*especially* with Avril)!
